Fall 2003 lab comments

- 4.18 Chad was great, always gave good advice on projects, and spoke clearly about them. He seemed to be interested in what we had to do.
- 4.91 Chad, I wasn't thrilled to have you in 112, but you've turned out to be probably the best TA I've had. Keep it up.
- 3.14 I would like to see the lab instructors spend time doing demos of their own in lab rather than just suggest solutions to problems we have. Its easy to tell students what tools they should be using, but i would find it more valuable if they would themselves show us proper techniques in photoshop or other programs so we could see what exactly we should be doing with a particular tool or technique.
- 4.45 The advice and helpful techniques were helpful for me to use in my projects. Your attitude was always up beat and professional. You spent a good amount of time with each individual in lab to help us on our projects, which was very helpful. You gave great information on how a project can be done better in the future.

Spring 2004 lab comments

- 4.91 chad, you rock. jeff b.
- 5 This is my second class with Chad. I think he is an amazing TA. He always has time for the student and he really tries to help you as long as you help yourself.
- 4.14 Very helpful indeed. Approachable during office hours and gives constructive comments
